### Event Description:

This course is designed to train Red Cross Partners to be able to assist with sheltering operations when deployed during an emergency. It will provide an overview of all shelter operations and help participants understand how to best serve shelter clients.

This Shelter Operations training is a prerequisite to participate in the Mountain CERTs Disaster Shelter portion of our two-day training exercise on Saturday and Sunday, September 16<sup>th</sup> and 17<sup>th</sup>, 2017. If you are not able to complete this class, you can still participate as a victim during the September exercise.
